Skills

FFRONT-END DEVELOPMENT

Accessibility, Bootstrap, HTML, CSS, Material-UI, JavaScript, React.js, Redux

BACK-END DEVELOPMENT

Express.js, Node.js, Rest API

DATABASE

MongoDB, MySQL, PostgreSQL

OTHER

WordPress, Git, Figma, AdobeXD

Languages

English - Fluent
Finnish - Novice
Nepali - Native

Accompolishments

48-hour Summer Hackathon
Integrify.io (29.06.2022)

Responsive Web Design
FreeCodeCamp (December 2021)

Visual Elements of User Interface Design
California Institute of the Arts (November 2020)

HTML/CSS
TESTDOME (April 2020)

Pragati Bhandari
Full-Stack Developer

I am an ambitious Full-Stack Developer and a recent graduate with Bachelor's degree in Information Technology. I have participated in numerous development projects while collaborating with other developers. My top skills in are react.js, Javascript, Material-UI, SASS, Express.js, Node.js, Mongo DB, and MySQL. In my work, I strive to fuse stunning design and functional code.

Recent Projects

Country Search App
React.jss, CSS

A web-based application built from scratch to deployment. This application features a functional User Interface and presents information about the country fetched from open source API. This app allows users to search for a country and get more information by clicking it. The app also allows users to add and remove their favorite country. Users can sort the countries according to name, population, region, and capital. To see the demo click **here**

Calculator
Javascript

A calculator built from scratch. The calculator performs Addition, Subtraction, Multiplication, and Division. The calculator is programmed in a way that it can calculate the floating point number or integers. In addition to the calculations signs and number buttons, it contains a delete button, and a reset button. To see the demo of the project click **here**

Education and Training

B.ENG. IN INFORMATION TECHNOLOGY, SOFTWARE ENGINEERING

Metropolia University of Applied Sciences | Helsinki, Finland | August 2015- February 2022

FULL STACK TRAINING

Integrify | Helsinki, Finland | January 2022 - June 2022

- Collaborate with other developers of different seniorities on a diverse range of projects and real-life challenges.
- Focused on front-end development with JavaScript, TypeScript, React.js, and Redux in addition to other technologies and concepts such as accessibility and animations.
- Built back-end for web-based applications with frameworks such as Node.js and Express.js.
